Product Description

Experience the delicious signature taste of Dunkin' Donuts Original Blend medium roast coffee at home with Dunkin' Donuts Kreuig K-Cups. We use premium Rain Forest Alliance certified 100% Arabica Colombian-grown coffee beans that are specially blended and roasted for home brewing to achieve the famous Dunkin' Donuts taste that coffee lovers crave. Rich and smooth, Dunkin' Donuts Original Blend Kreuig K-Cups coffee provides a full-bodied earthy brew featuring citrus undertones and hints of pear. Yum!

From The Manufacturer

Dunkin' Donuts Original Blend K-Cup Pods

Taste

Whoever said good things come in small packages must have been talking about our Dunkin' Donuts Original Blend K-Cup pods. Smooth, flavorful, and ready to brew, Dunkin' Donuts Original Blend K-Cup pods deliver our signature Dunkin' taste in every pint-sized portion. They're everything you love about Dunkin' coffee conveniently made in your Keurig brewer. Perfect for days that end in "y."

- 100% premium Arabica beans, medium roast
- Full-bodied flavor
- This coffee is specially blended and roasted to achieve the signature Dunkin' Donuts taste at home. We recommend using 1 1/2 tablespoons of ground coffee per 6 fl oz of water.

America Runs on Dunkin'

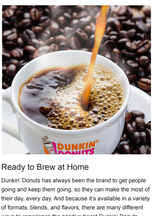
It all started with a single donut restaurant in Quincy, Massachusetts 60 years ago. Our Dunkin' Donuts coffee has fueled a phenomenon. Rich and smooth, our legendary coffee is made from only premium Arabica beans. You can experience the signature Dunkin' Donuts taste from the comfort of your home.

Keurig, Keurig Hot, K-Cup, and the K logo are trademarks of Keurig Green Mountain, Inc., used with permission.

America Runs on Dunkin'

100% Arabica Coffee Beans

We select high quality coffee beans by working with independent coffee labs near the Central and South American coffee sources. We scrutinize these beans for optimum size and color; then, prepare only the best beans for roasting. We're dedicated to providing a consistently smooth and delicious high quality cup of coffee.



Ready to Brew at Home

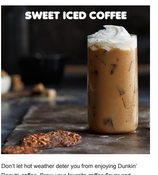
Dunkin' Donuts has always been the brand to get people going and keep them going, so they can make the most of their day, every day. And because it's available in a variety of formats, blends, and flavors, there are many different ways to experience the positive boost Dunkin' Donuts coffee provides, wherever and wherever you want it.

A Smooth and Unforgettable Flavor

Not only will you swoon to its aroma while you brew Dunkin' Donuts Ground Coffee at home, you'll savor its smooth, flavorful taste. You can count on Dunkin' Donuts to provide consistently delicious coffee every time you brew a fresh cup. If our coffee doesn't meet our superior standards, it won't make it to your home and into your mug.

Get Creative with Your Cup o' Joe

Affogato is an Italian miracle, as far as food experiences go! Combine one or two scoops of ice cream (or gelato) with your favorite strongly-brewed Dunkin' Donuts coffee in a glass mug or dessert dish. Using K-Cup pods? No problem. Just brew your coffee on the smallest available cup setting. Ice cream affogato can also be great with a swirl of amaretto liqueur or a drizzle of honey.



Don't let hot weather deter you from enjoying Dunkin' Donuts coffee. Brew your favorite coffee flavor and combine hot brewed coffee with 1/3 cup sugar and 1/2 cup half-and-half in a pitcher. Blend in 1 1/2 cups cold water. Chill until ready to serve. Pour coffee over ice and top with whipped cream, if desired, for added richness.

You can easily create a cappuccino with Dunkin' Donuts 100% Arabica coffee. Simply combine 1/2 cup of your favorite Dunkin' Donuts brew - or one K-Cup pod on the smallest setting - with 1/3 cup hot whole milk. Mix on high with a mixer until a thick layer of foam forms on the surface. Sweeten your coffee to taste and spoon the foamed milk - and perhaps some cinnamon or cocoa, too - over the top.
