### Product Description

Style:500mg | Size:70 Count

MegaRed Advanced 4 in 1 is a special combination of high concentration fish oil and high absorption krill oil that has 2 times more Omega 3s vs. standard fish oil alone. Our most advanced Omega-3 supplement to date brought to you by one of the leaders in omega 3 supplements, MegaRed. This advanced formula goes beyond just heart health. MegaRed 4in1 supports and provides benefits to 4 areas in the body - heart, joint, brain and eyes. Heart - May reduce the risk of coronary heart disease.\*\* Joint - Promotes joint comfort.\* Brain - Supports brain health.\* Eyes - Building block for eye health.\* \*These statements have not been evaluated by the food and drug administration. This product is not intended to diagnose, treat, cure or prevent any disease. \*\*Supportive, but not conclusive research shows that consumption of EPA & DHA Omega-3 fatty acids may reduce the risk of coronary heart disease.

### From The Manufacturer

**Go Beyond Heart Health**  
Specially formulated with high concentration fish oil and high absorption krill oil, MegaRed Advanced 4in1 Omega-3 softgels are designed to support heart, joints, brain and eye health! All with one small softgel per day!

### Omega-3s for Heart Health

MegaRed Advanced 4in1 contains a blend of high concentration fish oil and high absorption krill oil that may reduce the risk of coronary heart disease.\*\* MegaRed Advanced 4in1 softgels provide the important Omega-3 fatty acids EPA and DHA which MegaRed krill oil helps your body to absorb quickly and easily. EPA and DHA support several important areas related to your heart health, including Omega-3 index and C-reactive protein levels, while assisting with the active regulation of triglycerides.\*

### Omega-3s for Brain Health

The special combination of fish oil and krill oil in MegaRed Advanced 4in1 softgels support brain health.\* Omega-3 fatty acids are highly concentrated in the brain and appear to be important for cognitive (brain memory and performance) and behavioral function. The Omega-3 fatty acids EPA and DHA found in MegaRed Advanced 4in1 play a crucial role in the development of cognitive brain function, as well as the maintenance of healthy brain function in older adults.\*

### Omega-3s for Joint Health

MegaRed Advanced 4in1 Omega-3 softgels also promote increased joint comfort — the powerful Omega-3 fatty acids EPA (Eicosapentaenoic Acid) and DHA (Docosahexaenoic Acid) provided by MegaRed Advanced 4in1 support joint comfort and flexibility.\* Plus, the addition of ultra-absorbent MegaRed krill oil provides an additional boost of Omega-3s for 2X more concentrated Omega-3s vs. standard fish oil.

### Omega-3s for Eye Health

The Omega-3s provided by MegaRed Advanced 4in1 are an important building block for eye health.\* Omega-3 fatty acids are found in every cell in your body and help regulate biological functions. The Omega-3 Docosahexaenoic Acid (DHA) is concentrated in the retina of the eye — the layer of tissue that lines the inside of the eye and receives the image formed by the lens. The high potency Omega-3s in MegaRed Advanced 4in1 are essential aids for transforming light into neuro-signals to the brain.

### Fewer Doses With More Powerful Omega-3s Than Standard Fish Oil

Easy to Swallow, Easy to Absorb.  
MegaRed Advanced 4in1 Omega-3 is a unique combination of high concentration fish oil and high absorption krill oil that provides Two Times more concentrated Omega-3 fatty acids in one small softgel compared to typical fish oil. That means you only have to take ONE small MegaRed Advanced 4in1 softgel per day. This fish oil and krill oil combination has resulted in our most powerful Omega-3 nutritional supplement yet.

- Smaller Softgels / Big Benefits
- Powerful Omega-3 concentration supports heart, brain, joint and eye health vs. lower Omega-3 concentrations of standard fish oil.
- Compare our MegaRed Advanced 4in1 softgels vs. standard fish oil.
- Just one MegaRed softgel per day vs. two softgels per day for two standard fish oil.
- Small bottle, many doses vs. large dose bottles of standard fish oil.

### Advanced Omega-3 Technology

*Much More Than Fish Oil Alone.*

Krill oil in phospholipid form similar to Omega-3 fatty acids, is easily absorbed by the body. Innovative technology has allowed for the blending of extra strength fish oil and our high absorption krill oil to create MegaRed Advanced 4in1 Omega-3 softgels. Multiple studies have shown that higher intakes of advanced EPA (Eicosapentaenoic Acid) and DHA (Docosahexaenoic Acid) Omega-3 fatty acids benefit and support some of the most relevant areas of human health, brain, joint and eye health.\* These long-chain advanced Omega-3 fatty acids (EPA and DHA) are found in cold water fish, and also krill oil, which is more easily recognized and processed by the human body than fish oil by itself. Omega-3s (EPA and DHA) provided in the phospholipid form of krill oil makes it easier for your body to recognize and absorb the Omega-3 fatty acids. These MegaRed Advanced 4in1

**Sustainable Fisheries**  
MegaRed takes quality a step further by sourcing krill only from Antarctic sustainable fisheries as certified by the Marine Stewardship Council (MSC) where krill is abundant, helping the ecosystem there maintain a healthy, sustainable krill population. Additionally, oil pressed from krill is famous due to the fact that it's naturally free from harmful chemicals such as mercury that may be found in fish sourced elsewhere.

\*These Statements Have Not Been Evaluated By The Food And Drug Administration. This Product Is Not Intended To Diagnose, Treat, Cure Or Prevent Any Disease.

\*\*Supportive, but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease.

\*\*\* As ethyl esters.
